

CMA
Exciting opportunity for Industrial Trainees

About Us:

We, Avalon Technologies Limited, with an annual turnover of Rs 850+Cr, is one of the leading fully integrated Electronic Manufacturing Services ('EMS') companies with end-to-end capabilities in delivering box build solutions in India. We operate lean manufacturing with a focus on high value precision engineered products. We have manufacturing plants in 12 locations across India (Chennai, Bengaluru) and US (Atlanta, Fremont). Through a unique global delivery model, we provide full stack product and solution suite, right from printed circuit board ("PCB") design and assembly to the manufacture of complete electronic systems ('Box Build'). Our customers are global original equipment manufacturers located in the United States, China, Netherlands and Japan.

We have recently filed our Draft Red Herring Prospectus papers for getting listed in the Indian stock exchanges.
