Sir,

Subject: Urgent requirement of cost accountants for MIT project

I am an economics PhD student at the Massachusetts Institute of Technology working on a project exploring strategies to improve productivity among small to medium-sized firms. My team and I are trying to find a cost accountant or lean consultant who might be interested in working with us in Chennai. To begin with, this would be a short-term contract of 10-20 hours during the week of August 8th or 15th.

EXPERIENCED COST ACCOUNTANTS IN
(MEDIUM AND SMALL SIZE FIRMS)

do

The project will involve working with 3-4 small businesses over the course of a week to see whether firm owners and managers are able to generate ideas to improve their business productivity and profits. We will aim to spend 30-45 minutes with each firm on a daily basis. We would like to find an expert in this area to help the business owners and managers during these discussions if they struggle to generate ideas.

Thank you for your time and consideration.

Interested candidates could reach me through krajah@mit.edu
