Key Responsibilities

- Assist in cost analysis, budgeting and forecasting for ongoing and upcoming projects.
- Support in preparation of management reports (MIS) for decision-making.
- Monitor and analyze project costs, variances and profitability.
- Assist in cost control measures and suggest process improvements.
- Coordinate with finance, operations and project teams to track expenses and ensure cost efficiency.
- Support in statutory and regulatory compliance related to costing and management accounting.
- Assist in preparing presentations and reports for internal review and stakeholder meetings.
- Stay updated on relevant regulations, costing standards and industry best practices.

Key Requirements

- Qualified Cost & Management Accountant (CMA).
- 0 – 3 years of post-qualification experience (in Costing, Finance, or Management Accounting).
- Strong knowledge of cost accounting principles, budgeting, financial analysis and MIS reporting.
- Proficiency in MS Excel and financial modelling tools.
- Good analytical and problem-solving skills.
- Attention to detail and ability to work with large data sets.
- Effective communication and team collaboration skills.
- A proactive attitude and willingness to learn and grow.
