

REQUIRED

Career as a Digital Trust Professional for CMA Students

The future is bound to be everything digital! There is a global demand for digital trust professionals who can help embed and audit risks and controls in digital business applications and systems and help build trustworthy systems.

This involves an exciting combination of knowledge, skills, understanding of business process controls, risk management, accounting, internal controls, governance, compliance and how these work in digital business applications and systems.

We are a boutique professional firm of Chartered accountants specialising in digital and systems audit, risk management, cybersecurity, digital compliance and advisory services since over 3 decades.

We are looking for CMA Pass/CMA Final/ CMA Inter. Candidates with good analytical, flair for systems controls, internal audits and report writing skills will get preference.

If you identify with the above as a career path that interests you, reach out to us with your CV at mail@krca.in mobile: +916381235494
